

Rising through the actuarial profession

Studying mathematics, statistics and business can lead to certification as an actuary. Today's actuaries help make critical business decisions in a surprising variety of areas.

Wednesday, March 26
4:30 - 5:30 pm
127 Hayes-Healy Center

Refreshments will be provided.

Jeremy Pecora, FCAS, MAAA

Jeremy Pecora is a senior actuarial consultant with the Risk Consulting and Software business of Towers Watson and currently manages its Detroit office. Mr. Pecora has authored articles in Best's Weekly and has contributed to the Captive Insurance Company Reports (CICR). Mr. Pecora received a Bachelor of Science in Mathematics from Fairmont State College and a Master of Science in Pure Mathematics from West Virginia University. He is a Fellow of the Casualty Actuarial Society and a Member of the American Academy of Actuaries.

This lecture is also sponsored by the Department of Applied and Computational Mathematics and Statistics.
