

Young Alumni Night for Actuaries

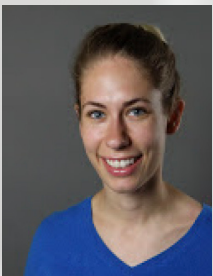

April 11, 2019
5:30 pm
125 Hayes-Healy

Tony Maley

Tony graduated from Notre Dame in 2016 with a B.S. in Mathematics and Economics. Since graduating, Tony has worked for Allstate Insurance Company in their downtown Chicago office. Most of his time has been spent pricing Auto and Home insurance for Indiana, Michigan, and Ohio, until recently, where he has started pricing shared economy initiatives for Allstate Business Insurance. He aims to become an Associate of the Casualty Actuary Society this fall, and a Fellow next fall.

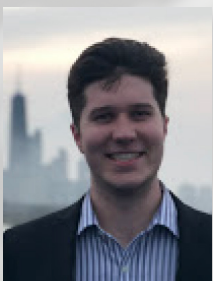

Megan Schomaker

Megan graduated from Notre Dame in 2018 with majors in ACMS and Economics and a minor in Actuarial Science. She currently works at Nyhart, an actuarial consulting firm based out of Indianapolis, on their healthcare team as an analyst. At Nyhart, Meg has worked on a variety of pure health and OPEB reporting projects for 100+ clients. In her free time, when she's not studying for her next actuarial exam, Meg enjoys rock climbing, painting, and cooking.

James Koci

James is an actuarial analyst working in the Retirement and Investment division at Aon in Chicago, IL. He graduated from the University of Notre Dame in May 2017 with a Bachelor of Science in Physics and a minor in Actuarial Science. As an actuarial analyst, he works on pension and OPEB plans, performing valuations and analysis for both large and small clients across multiple industries. He is currently pursuing his ASA.

Benjamin Hallberg

Ben graduated from Notre Dame in 2018 with an honors Mathematics major and an Actuarial Science minor. Since graduation, he has worked for BlueCross BlueShield in Illinois in the Small Group pricing division. In Small Group pricing, he is responsible for pricing, maintaining, and forecasting various lines of business.
