Tuesday, January 28, 2020

5:15 pm  Gold Mass for Scientists and Engineers
Basilica of the Sacred Heart

6:15 pm  Reception
Jordan Hall of Science Galleria

7:15 pm  Edison Lecture
Christopher Baglow, Ph.D., 105 Jordan Hall of Science

The Catholic Faith and Modern Science:
Understanding and Correcting Models of Conflict

Recent studies show that many young Catholics assume that science and religion are inherently incompatible, but in the words of chemist and eminent historian of science, Lawrence Precipe, “The idea that scientific and religious camps have historically been separate and antagonistic is rejected by all modern historians of science.” Baglow, the director of the Science and Religion Initiative of the McGrath Institute for Church Life at Notre Dame, will address the origins of the conflict/warfare model of science and religion. He’ll also share the actual approach of the church to science, and outline the path toward future thought.

Other sponsors: McGrath Institute for Church Life, de Ncolo Center for Ethics and Culture, and The Environmental Change Initiative.
