

What does an actuary do? Hear from the experts.

Studying mathematics, statistics and business can lead to certification as an actuary. Today's actuaries help make critical business decisions in a surprising variety of areas. Learn more from the experts at our Ask the Actuaries Seminar.

November 27, 2012
7:00-8:00 p.m.
127 Hayes-Healy Center

Speakers:

David E. Delahanty, ASA

Mr. David Delahanty is an associate of the Society of Actuaries, a member of the Health, Pension and Actuary of the Future Sections of the Society of Actuaries; an enrolled actuary in the Conference of Consulting Actuaries and American Academy of Actuaries (former); and a Senior Consultant for Towers Watson. Mr. Delahanty is a 1986 graduate of the University of Notre Dame.

Nicole Delahanty, FSA, CIMA

Ms. Nicole Delahanty is a principal and senior consultant at Jeffrey Slocum & Associates, Inc. She received a Bachelor of Commerce Honors in actuarial science from the University of Manitoba and a Masters of Business Administration from Augsburg College. Ms. Delahanty holds the Certified Investment Manager Analyst (CIMA) designation through the Investment Management Consultants Association, the designation of Enrolled Actuary under ERISA, and became Fellow of the Society of Actuaries (FSA) in 2002.

The lecture is sponsored by the Delahanty Family Endowment for Excellence in Mathematics, the Department of Applied and Computational Mathematics and Statistics, the Department of Mathematics, the Actuarial Club and the Career Center.
